

Life Program Report - KofC Council 13181 Business Mtg. Mon., June

- Perhaps the most important bill that ever came before the citizens of Maine, LD 1619, brought together the largest crowd the inhabitants of the State of Maine Capitol building have seen in a long time. Around 2000 people attended a gathering on May 1st, a Monday. Over 700 citizens testified, with 675 signed up in opposition, and less than 75 supporting it. The testimony began at noon on Monday, concluding 17 hours later, just before 7 A.M. on Tuesday, with around 200 hearty souls staying until the end.

The Judiciary Committee will be in a Work Session real soon, because there are only 10 days remaining in the current Legislative Session. Tomorrow, Tuesday, June 6th, testimony books that include all 1,184 testimonies opposing this bill, will be delivered to all House Democrats. Please pray that our elected representatives will understand that the majority of their constituents do NOT want the current law to expand to include abortion, right up to the moment of birth, with no criminal penalties on anyone performing this procedure who is not medically and professionally qualified and licensed. Also, please contact your legislators by email (voicemails are full and/or have been deleted), to show your support in killing this bill, NOT babies.
